OUR INSPIRATION

THE LIFE OF GABRIELLE RICH AOUAD 1969-1996

GABRIELLE RICH AOUAD grew up in Switzerland where she graduated from Aiglon School. She graduated with honors from Oxford University in England, earning her B.A. in philosophy and modern languages. Fluent in five languages, Gabrielle was a champion skier, an expert in horseback riding and a skilled rock mountain climber.

In the summer of 1991, she moved to New York and joined the NYU intensive film program where she met her future husband, Philip Aouad. At the tender age of 23, she was diagnosed with advanced stage Hodgkin's disease. Her strength and feistiness never failed through months of painful treatments.

By 1993, Gabrielle was at last in remission. This period of renewal brought great vibrancy and activity to her life. She and Philip got married. She became one of the finalists in the worldwide search to replace Isabella Rossellini as the face of Lancôme. She studied acting at the Lee Strasberg Institute. Her drive brought her great success. In no time, Gabrielle had eight plays and seven movies to her credit. Her film roles included a newscaster in "The Chase" starring Charlie Sheen and a seductress in "Savage Hearts" starring Richard Harris. In addition to her acting skills, Gabrielle was a gifted writer. She wrote a screenplay, "Surprise," she dreamed would one day be produced.

In May of 1996, she was diagnosed with acute myelogenous leukemia (AML). Once more, she was treated with chemotherapy. She lost her beautiful long hair, but fought with fearless determination throughout her difficult and painful treatment. After going into remission for the second time, she was due for a bone marrow transplant, so her mother, Denise, donated her own bone marrow to save Gabrielle's life. Upon receiving this gift Gabrielle said, "Mummy is giving me birth again."

Gabrielle's final wish was to create a leukemia foundation that would help spare others the suffering that she endured. One of its goals would be to invest in research for better treatments for leukemia, so people would not have to suffer from the side effects and damage of chemotherapy and radiation. Gabrielle Rich Aouad passed away in the fall of 1996 at the tender age of 27.

The work of Gabrielle's Angel Foundation for Cancer Research continues in her honor and memory. Gabrielle's strength and wisdom live on in her own words, "Love defies all pain, even death."

DIONNE WARWICK

Six time Grammy Winner & Multi-platinum Recording Artist

DIONNE WARWICK ranks among the 40 biggest US hitmakers based on her chart history in Billboard's Hot 100 pop singles chart. She is the second-most charted female vocalist during the rock era. She is also one of the most charted vocalists of all time with 56 of her singles making the Hot 100 (12 Top 10s) and 80 singles in total—either solo or collaboratively—making the Hot 100, R&B and/or adult contemporary charts. Dionne ranks #74 on the Billboard Hot 100's Greatest Artists of All Time.

During her career, she sold more than 100 million records worldwide, and she has won many awards, including six Grammys. Warwick has been inducted into the Hollywood Walk of Fame, the Grammy Hall of Fame, the R&B Music Hall of Fame, and the Apollo Theatre Walk of Fame. In 2019, she won the Grammy Lifetime Achievement Award. Three of her songs—"Walk On By," "Alfie," and "Don't Make Me Over"—have been inducted into the Grammy Hall of Fame. She is a former Goodwill Ambassador for the UN's Food & Agriculture Organization. Dionne received a Kennedy Center Honor in 2023 and was inducted into the Rock & Roll Hall of Fame in 2024. Dionne has been dubbed the "Queen of Twitter" for her outspoken comments on social media, of which Saturday Night Live does a recurring parody. Golden Globe winner, Oscar nominee, and Grammy Award winner Teyana Taylor will be playing Warwick in an upcoming biopic.

Warwick has announced the final album of her 65-year recording career, entitled "DWuets." Its first single features a first-time collaboration between Warwick and Emmy Award–, Tony Award–, and 2x Grammy Award-winning and 3x Oscar-nominated artist Cynthia Erivo. "DWuets" is a full album of duets written entirely by 17-time Oscar nominee and Special Oscar recipient Diane Warren—marking the first time Warwick and Warren have worked together. Longtime friends, Warwick and Warren call each other by their mutual initials "DW," reflected in the album's title. Oscar-nominated, 2x Grammy Award–winning producer Damon Elliott produced all the album's duets. The duet with Dionne and John Legend, "Where Is Your Heart," is the second successful single from the album. The third single, "One Heart" featuring Dionne and special guests will be released on September 25th in observance of the UN's International Day of Peace. This release date is in conjunction with 2026 "Rise As One: Empowering Champions of Peace" gala being held by the Whitaker Peace & Development Initiative (WPDI.) Forest Whitaker founded this organization to help young people and women in vulnerable communities find the skills, confidence and opportunities to lead, build peace and to create a better future for themselves and those around them. The 2026 "Rise As One: Empowering Champions of Peace" gala is at Gotham Hall in New York City during the week of the United Nations General Assembly.

It is a privilege to support this remarkable mission and to celebrate the profound impact Gabrielle's Angel Foundation continues to make.

Congratulations on this year's Angel Ball Gala and on another extraordinary evening dedicated to hope, progress, and a future without cancer.

With admiration and heartfelt support,

Nicola Verses

Denise—

Leukemia took our loved ones.

So, you & I are joined, like sisters—
determined and unwavering—
to the same cause.

Together, we are stronger,
more nimble, more focused.

Tonight, I honor you, and Gabrielle.

Love,

Lynda Carter

OUR MISSION

Gabrielle's Angel Foundation for Cancer Research funds the nation's best and brightest scientists whose research focuses on finding less toxic treatments for patients with leukemia, lymphoma, and related cancers. On average, eighty-eight cents of every dollar directly funds research which to date represents more than $47 million in global giving. For thirty years, the Foundation has honored Gabrielle's memory by funding the boldest, most cutting-edge ideas in cancer research.
